

Quality Policy

Hydro Extrusion Poland Sp. z o.o.

Hydro Extrusion Poland's specialisation is to render comprehensive services related to manufacturing, processing and refining aluminium profiles for industry, including the automotive industry.

Our company guarantees the stability of products and services' quality by the application of efficient and innovative work technologies, based on Hydro Extrusion's values. We are constantly raising the awareness of employees and co-operating companies in the field of broadly defined quality.

Hydro Extrusion Poland shall carry out the following objectives:

- satisfy Customers' expectations, requirements and needs;
- pursue constant growth of employees' skills at all levels;
- aim to achieve zero defects level;
- employees to participate actively and with consideration of their roles and involvement in the actions aiming to improve products' quality;
- ensure qualified staff by systematic employee training in the scope of quality issues;
- co-operate with reliable and qualified suppliers;
- implement new techniques and technologies improving the quality of manufactured and processed aluminium profiles with regard to the economic conditions;
- improve operating processes occurring in the company and goods manufactured.

The Management Board of Hydro Extrusion Poland ensures required resources and means to improve Quality Policy and ensures that this Policy is clear, implemented, maintained and communicated in all areas of the organisation including the entities working under our supervision and the co-operating companies.

Additionally, the Management Board and the Managers of the Company shall constantly improve the implemented Quality Management System and meet applicable requirements including the requirements of ISO 9001, IATF 16949 and special requests of the Customers. This Quality Policy is relevant for the purpose of existence and in the context of the organisation and supports its strategic direction. It also constitutes the grounds to identify and review periodically formulated quality objectives.

Our success originates from responsibility, involvement, competence and co-operation of all employees of the Company, therefore, we initiate and support actions aiming to improve qualifications, awareness and motivation of the employees.

We conduct the above-mentioned actions in the manner based on the Quality Management System compliant with the requirements of ISO 9001:2015 and IATF 16949:2016 standards.
