Lighting Columns of aluminium

- 50 years design life
- Lightweight
- Sustainable

Aluminium lighting columns in all shapes and sizes

Aluminium lighting columns from Hydro offer many possibilities in terms of height and diameter, tailored to your needs, luminaries and location. You can choose from post top lighting columns and lighting columns with bracket(s) in a cylindrical or conical shape, or conical bended.

Aluminium naturally possesses passive safe qualities. Therefore, aluminium columns are often passively safe by nature.

Hydro offers a full range of passive safe lighting columns.

Local technical support available in the UK.

In compliance with standards and regulations:
- Design in accordance with the British standard BS-EN 40-6
- Calculations according to the British standard BS-EN 40-3-3
- Passively safe according to BS-EN 12767 – see certificate EN 40
- Cradle to Cradle Certified™ silver

Installation options:
- Planted in the ground
- Two-piece base plate (drawing DS3.002.000.14)
- One-piece base plate (drawing DS3.001.000.01)
- Welded specialized base plate

Bracket options (PDSEN/UK32.02.001.r02):
- Fixed brackets
- Cast piece brackets
- Invisible joint brackets

Passive safe lighting columns options:
- LE lighting columns (PDSEN/UK.01.02.001.r02)
- HE lighting columns (PDSEN/UK.16.02.001.r02)
- NE lighting columns (PDSEN/UK.20.02.001.r02)
Lighting Columns

*Other types available

Technical characteristics:

- Seamless tube made of aluminium extrusion;
- Alloy EN AW6060 T66;
- 100% recyclable;
- Flush fitting door with 2 triangular locks;
- Welded reinforcement profile at the inside of the door section, complete with mounting rail (2x M6 slip nuts + 1x M8 earth nut) and mounted wooden backboard;
- Extra earth nut M8 at the inside of the door;
- Ground piece protected with corrosion protective grey tape + Ground Level protector;
- Cable entry slot incl. protection cap;
- Surface brushed finish, electrostatic powder coating, anodized.
